

1996

KICK OFF

We started producing rubber compounds for wires and cables.

1997

A RADICAL CHANGE

Pioneer in producing rubber pellets, now globally used, instead of strips.

2001

NEW PLANT

Based on a unique manufacturing process and completely in-house designed.

2008

2.0 SECOND RELEASE

We integrated new machinery to reach 25,000 MTons/year of production capacity.

2016

A GLOBAL APPROACH

We currently export to more than 30 countries worldwide.

OUR MISSION

We provide quality solutions for cable manufacturers to grow their productivity of top notch, cost-effective and safe power cables, according to the highest professional standards.

OUR VISION

Transferring our passion for innovation and improvement to the whole cable value chain.

OUR VALUES

CONSISTENCY

We put in a strong effort to fulfill our customers' high expectations.

COOPERATION

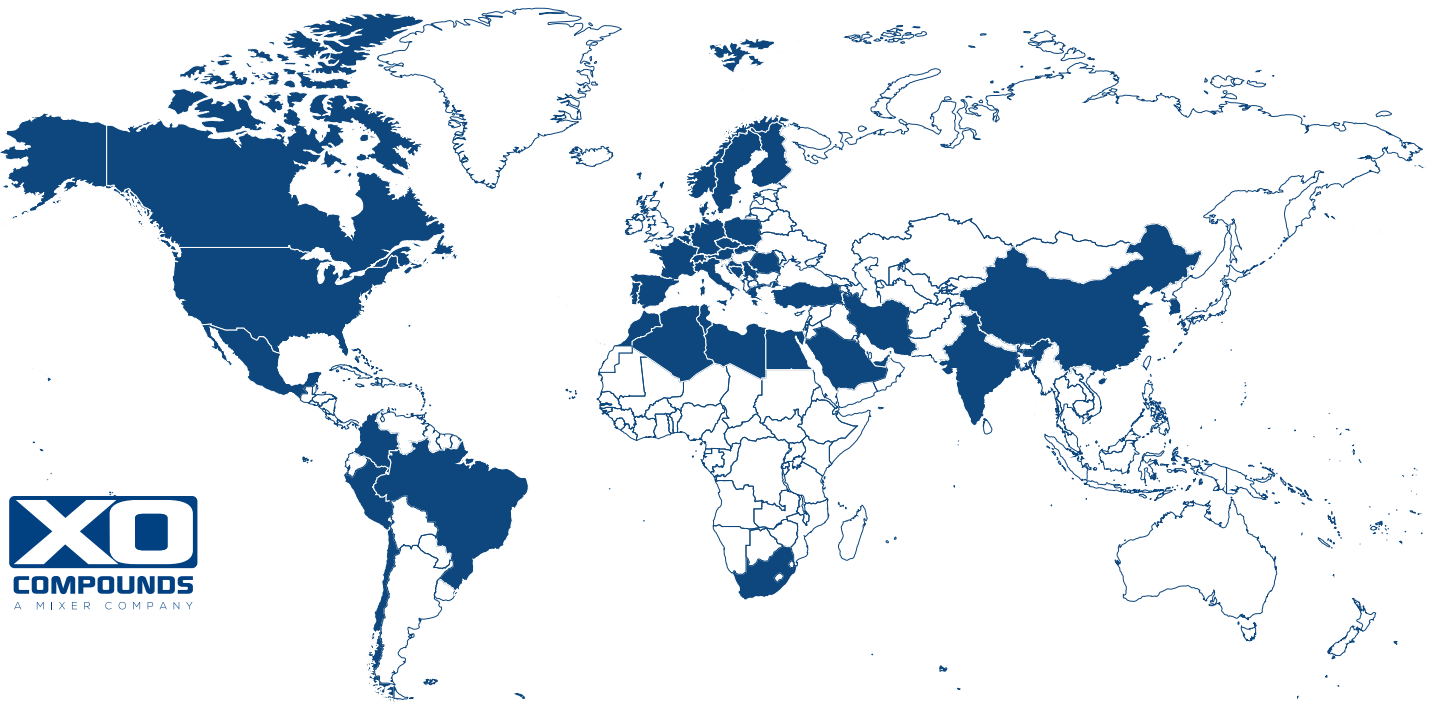

We believe that working together is the key of a trustworthy relationship.

COMMITMENT

Our customer's success is our success.

eco-friendly TECHNOLOGIES

- Halogen Free
- Lead Free
- Low PAH
- Phthalate Free
- RoHS

other TECHNOLOGIES

- DCP (Dicumyl Peroxide)
- Drumable
- Easy Peeling
- Fire Resistant
- Flexible
- CPR (For CPR)
- Gas Fading Resistant
- Heavy Duty Applications
- High Speed Extrusion
- Low Compr. Set
- Low Smoke Emission
- Migration Resistant
- Oil Resistant
- Ozone Resistant
- Thermal Endurance (20,000 h)
- Water Resistant (H₂O)
